THE PROBLEM

Registers forget. Gymint doesn't.

Most gyms don't lose money at the door. They lose it in the gaps between a register, an Excel sheet and fifty WhatsApp chats.

	WITHOUT GYMINT	WITH GYMINT
RENEWALS	You find out a plan ended when the member stops coming.	A WhatsApp goes out before every plan ends. Every renewal due this week, on one screen.
FEES	Cash, UPI, half payments and "I'll pay tomorrow".	Every payment gets a GST invoice. Balances stay on screen until they're cleared.
CONTROL	The gym only runs properly when you're at the desk.	Check-ins, collections and staff attendance on your phone, for every branch.
